Social licence to operate (SLO) is the ongoing acceptance of a company's business practices by its employees, stakeholders, and the public. Learn how SLO is created, maintained, and threatened by various factors and how it relates to sustainability and the triple bottom line. A social licence to operate is the collective support and permission from key stakeholders that allows a company to thrive. Learn how to measure, shape, and restore it with Reptrak data and examples. A social licence to operate is a term used to describe the social acceptance and legitimacy of a company's activities and behavior. It is influenced by institutional, political, and cultural factors and involves a balance between economic, social, and environmental responsibilities. A social licence to operate (SLO) refers to the level of acceptance or approval by local communities and stakeholders of organisations and their operations. The concept has evolved fairly recently from the broader and more established notions of corporate social responsibility and social acceptability. The term social licence or social license to operate (SLO) refers to the level of ongoing approval a community gives to an industry or project. The social licence gives legitimacy to operate beyond something simply being legally allowed. Abstract: The field of studies on social licence to operate (SLO) has grown considerably over the past two decades, leading to the emergence of new approaches, models, and theoretical development. This paper aims to organise, map, and analyse the evolution of SLO over its years of existence. We seek to understand the theoretical body that social licence to operate stakeholders. 1 Introduction I was thrilled when I first came across the Palgrave Handbook of Social Licence to Operate and Energy Transitions. This comprehensive guide delves into a subject I hold dear: the social licence to operate (SLO). 1 The term social licence to operate was first coined in 1997 and then developed in the mining industry as a metaphor with the legal licenses needed by mining companies to begin their projects. To notably define the level of tolerance, acceptance, or approval of an organization's activities by the stakeholders with the greatest executive summary. Main findings: Social licence generally refers to a local community's acceptance or approval of a company's project or ongoing presence in an area. It is increasingly recognized by various stakeholders and communities as a prerequisite to development. The development of social licence occurs outside of formal permitting or the social licence to operate. What is the social licence? The social licence has been defined as existing when a project has the ongoing approval within the local community and other stakeholders. Ongoing approval or broad social acceptance and most frequently as ongoing acceptance.
