a smart and revealing political memoir from a rising star of the democratic party in life and in politics the most important work is often that which happens outside the wire going outside the wire military lingo for leaving the safety of a base has taught jason kander to take risks and make change rather than settling for the easy option after you've volunteered to put your life on the line with and for your fellow americans in afghanistan cynical politics and empty posturing back home just feel like an insult kander understands that showing political courage really just means doing the right thing no matter what he won a seat in the missouri legislature at age twenty seven and then at thirty one became the first millennial in the country elected to statewide office an unabashed progressive from the heartland he rejected conventional political wisdom and stood up to the nra in 2016 with a now famous senate campaign ad in which he argued for gun reform while assembling a rifle blindfolded that fearless commitment to service has placed him at the forefront of a new generation of american political leaders in his final interview as president barack obama pointed to kander as the future of the democratic party do something rather than be something in outside the wire jason kander describes his journey from midwestern suburban kid to soldier to politician and details what he's learned along the way lessons imparted by his dad on the baseball diamond wisdom gained outside the wire in kabul and cautionary tales witnessed under the missouri capitol dome kander faced down petty tyrants in jefferson city no big deal after encountering real ones in afghanistan he put in 90 000 miles campaigning for statewide office in 2012 no sweat compared to the thirty seven miles between bagram air base and camp eggers when confronted with a choice between what's easy and what's right he's never hesitated outside the wire is a candid practical guide for anyone thinking about public service and everyone wishing to make a difference it's a call to action an entertaining meditation on the demands and rewards of civic engagement and ultimately a hopeful vision for america's future all seen through the eyes of one of its most dedicated servants
