c37 017 2020 ieee standard for bushings for high voltage

Feb 25 2024

abstract this standard is applicable to bushings intended for use in high voltage circuit breakers and gas insulated switchgear these bushings are intended for indoor and outdoor use operating on alternating current with a rated voltage greater than 1000 v and a frequency of 50 hz or 60 hz

c57 19 100 2012 ieee guide for application of power

Jan 24 2024

purpose the purpose of this guide is to present general information and recommendations for the application of power apparatus bushings when incorporated as part of power transformers power circuit breakers and isolated phase bus the loading model developed in this guide is based on oil impregnated paper insulated capacitance graded bushings
